RE: OU#2 ARARs
U.S. DOE - Fernald
OH6 890 008 976

Dear Mr. Craig:

96: On January 9, 1991, the United States Department of Energy (U.S. DOE) submitted a proposed list of Applicable or Relevant and Appropriate Requirements (ARARs) for Operable Unit #2 to the United States Environmental Protection Agency (U.S. EPA) for review. U.S. EPA and U.S. DOE have met several times to discuss ARARs for the various operable units. Many changes have been made since the first list of potential ARARs was submitted to U.S. EPA.

ARARs review is an iterative process. U.S. EPA will be evaluating the revised list of potential ARARs for completeness, but this list will not be final until remedy selection. U.S. EPA will notify U.S. DOE if any ARARs, including To Be Considered (TBCs), appear to be missing.

Please contact me at (312/FTS) 886-4436, if you have any questions.

Sincerely yours,

Catherine A. McCord
Remedial Project Manager

cc: Director, OEPA
Graham Mitchell, OEPA-SWDO
Leo Duffy, U.S. DOE
Joe LaGrone, U.S. DOE
